END RULE OF TRAITORS

Elect Men Who Pledge to Abolish Federal Reserve, End U.N., and Uphold States' Rights

THE THREE MUSTS

FOR SALVATION OF OUR COUNTRY:

During the next several months practically every member of the House of Representatives will come to you for your vote for re-election in November . . . also one-third of the Senate. What these men will do in the months before the election, and in the months after the election, can mean the LIFE or DEATH of our nation . . . That is not just a "figure of speech" — it is a FACT . . . the LIFE of our Nation depends upon it . . . which means it depends on **YOU, the VOTER!**

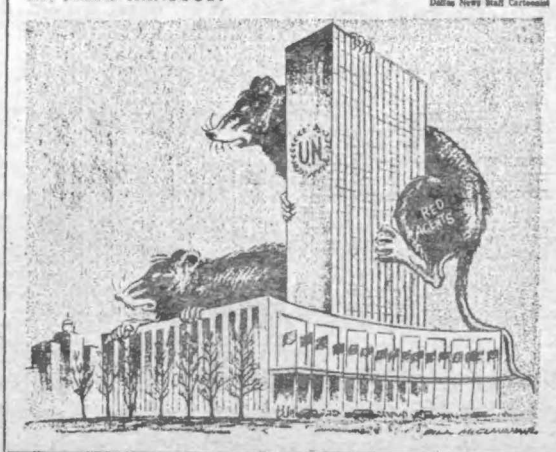

Ever since 1913, beginning with Woodrow Wilson, practically every man we've elected into the White House has betrayed our Nation . . . all at the behest of the One-World Conspirators, the International Bankers, now revealed as the "Council on Foreign Relations." During many of those years many of the men we elected to both Houses of Congress have, willingly or unwillingly, collaborated in those betrayals. Since 1954 our U.S. Supreme Court, headed by Earl Warren, has viciously and brazenly joined in the Conspiracy—doing their utmost to destroy our Constitution! Following are three (of many) heinous acts of treason they (collectively) committed:

Treason Act No. 1

First, bear in mind that all rights and powers to regulate our entire money system was delegated to Congress by our Constitution . . . But, in 1909 a group of International Bankers, headed by Jacob H. Schiff, Warburg, Lehman, J.P. Morgan, Drexel, Biddle, Rockefeller, and others, such as Senators Carter Glass and Nelson Aldrich, met secretly at Jekyll Island, Georgia. Their objective was to create a Federal Reserve System for the United States. But, actually, it was a plot to take our money system out of the control of our Congress and transfer it to a group of private individuals, the International Bankers—and thus enable them to loot (steal) the wealth of our nation. Now: those Conspirators knew that even if they could get a majority of Congress to pass their "Federal Reserve Act," which they couldn't have accomplished in those years, that the then President, William Howard Taft, would promptly have vetoed it. So they waited until 1913, when they got their man, Woodrow Wilson, into the White House. Then, at 4 p.m. on December 24, when all but three Senators had left for home for the Christmas holidays, they called those three into "Session"—they didn't even bother to call it a "quorum"—and "submitted" the "Federal Reserve Act," now commonly referred to as FED. Two of the Senators, Carter Glass and Nelson Aldrich "voted aye," and the "Act" was passed—and within an hour of that Christmas Eve, Wilson signed it into law! And ever since then the gang that owns the Federal Reserve Banks, many of them foreigners, whose names are unknown and never mentioned, have been looting us of all our wealth . . . That "Federal Reserve Act" must be repealed—and it is up to **YOU, up to every American**

Get the U.S. Out of the U.N.
And the U.N. Out of the U.S.

FAVORITE HANGOUT?

voter, to demand that your Representative and Senator publicly pledge to submit and to support such a REPEAL BILL!

Treason Act No. 2

In 1945, with just two exceptions, Senators Langer and Shipstead, our entire Senate signed the the UN Charter as a "treaty" with the "United Nations," despite the fact that under our Constitution the U.S. can enter into "treaties" only with sovereign nations—and it has never been even a pretence that there is anything sovereign about the UN—that it is nothing but a group of agents of Communist nations, a few Free Nations and some rag-tag Asian and African headhunting and Cannibal Tribes, whom the UN transformed into "nations" and provided each one with a vote equal to our single vote. Thus, we are always outvoted, and today our country is "governed" by the "United Nations." If you have even a remote doubt about the frighteningly horrifying death grip the UN has on the U.S. get a copy of "UN Is U.S. Cancer," (available from C.E.G.). Every day of life for the UN brings the U.S. a day closer to death! . . . Congress **MUST** get the U.S. out of the UN—it is up to **YOU, up to every American voter** to demand that your representative and Senator publicly pledge to submit and to support a bill for that objective . . . Furthermore, a Congressional, open-to-the-public Review of the UN Charter and all UN activities since 1945 will completely unmask the entire conspiracy and the names of

BANKRUPTCY OF JEW RULE

Jews and anti-Semites have one myth which they share in common: both tend to represent the Jew as a superman. The Jews say that they are a special kind of aristocrats, a WUNDERKIND who have achieved "supremacy" through their superiority over ordinary mortals, who are leading mankind toward utopia. The anti-Semites represent the Jews as a practically unbeatable race of evil supermen. Henry Ford raised this question in his book "THE INTERNATIONAL JEW." Is the Jew really a superman, whom it is useless for ordinary mortals to resist?

A great many of the Jews I know are practically complete meatheads. They are always wrong about everything except prices in the drygoods business or the pawnbroking business. A Jewish boy who is born a cretin or a moron may fail even in the drygoods business. In that case, he will enter the literary field, and, in the Jew-run publishing racket, will become a best-selling novelist. Jews are natural-born bazaar-keepers, pawnbrokers, and peddlers. They are absolutely incompetent in the fields of statecraft, literature, art, and politics. It is their misfortune, and ours, that in America they have strayed rather wildly into fields in which they are not qualified. As possessors of the money power, they are the DE FACTO ruling class of the richest nation in the world. Yet they are not qualified power-holders; they are not competent rulers. Under their misrule, this nation has drifted into a position of mortal danger. The Jews have no ability to rescue either themselves or us from this danger.

To be ruled by Jews is an automatic disaster for a Gentile nation. The defect of the Jew, as a power-holder, is basic and fundamental. He suffers from a fractured and defective form of human consciousness; he is not well oriented toward reality. Therefore, he constantly generates schemes which superficially may look brilliant or at least clever, but which in actual practice are non-functional. The Jew is a utopian, and the utopian is always really suicidal. The Jew is incapable of pursuing social goals which lie within the limits of possibility; he is always attempting the impossible; therefore, he will fail.

What, exactly, are the Jews attempting?

David Ben Gurion is a spokesman whom the Jews cannot easily disavow. In 1962, Ben Gurion issued a statement which sums up Jewish aspirations nicely. He predicted, "the cold war will be a thing of the past. Internal pressure of the constantly growing intelligentsia in Russia for more freedom and the pressure of the masses for raising their living standards may lead to a gradual democratization of the Soviet Union. On the other hand, the increasing influence of the workers and farmers, and the rising political importance of men of science, may transform the United States into a welfare state with a planned economy. Western and Eastern Europe will become a federation of autonomous states having a socialist and democratic regime. With the exception of the USSR as a feder-

SHOULD SENATE CONFIRM?

WILBUR COHEN...ARCHITECT OF CHAOS

Rise to Power Based on Art of Bureaucratic Lying!

Wilbur Cohen, recently appointed as Secretary of Health, Education and Welfare has never been elected to public office or served in the cabinet. He has acquired no pre-eminence in industry. He is not a skilled artisan or trained in any profession. Nonetheless he has arisen to a position of staggering power in government, controlling in considerable measure the lives of over 200,000,000 Americans.

Wilbur J. Cohen, who is known as the chief legislative strategist for the New Frontier and Great Society, has long been behind-the-scenes czar of the Department of Health, Education and Welfare which he pioneered over thirty years ago. Cohen, the federal "expert" and dictator in the field of medicine is neither an educator, nor a physician.

H.E.W. Demands Highest Integrity

There are perhaps no fields of endeavor where integrity and professional experience are more vital than those of medicine, education and scientific research. The department administers many of the Great Society programs and is the biggest spender in government, second only to Defense. It is important that we look carefully into the qualifications of its director since every person in America is affected in one way or another.

What is the background of the individual who has just been officially made top dog over this entire area of governmental operations? Wilbur Cohen is a mere labor economist! The Social Security board hired Cohen thirty-four years ago when he left college at a clerk's salary of \$1540, at a time when professionals were starting at a minimum of \$4,000. He could not qualify as a professional then; nor can he now. Cohen is an incompetent, one of the many pants pressers emeritus who have become a symbol of his ilk, and with which Washington is overloaded. He owes his rise in power to the fact that he knew the right people, maintained the closest ties with organized labor and evidenced little concern about the quality of the associates he selected to help him attain his ends.

The following words give a deep insight into the real character of Cohen. In a letter to a friend Dr. Marjorie Shearon, author of the book "Wilbur Cohen: The Pursuit of Power," wrote: "Cohen has tremendous power. He now lays down the policies of the President and the HEW Secretary, as well as having Senator Russell Long in his pocket as well as the two Kennedy boys. The Social Security taxes for which he is fighting will ruin many a small businessman and adversely affect larger corporations. They will, of course, give a big boost to inflation. It is really time that the Social Security swindle be exposed. Actuaries and other experts know the score, but the media won't tell the truth and the public is sadly in the dark. In the

chapters on 'Cohen's Chaos' and the 'Bureaucratic Art of Lying' I discuss how Cohen has cornered the trust-fund market, and how he has lied about Social Security and set himself above the Supreme Court and federal attorneys. He has just wangled two awards for his work on Medicare, one of \$5000 and one for \$10,000. Quite a boy."

Past Red Record

Wilbur Cohen has a past red record. He has never been questioned under oath about the matter. The following excerpt from the Hartford Times of 3-26-68 indicates he is a wheeler-dealer with a tricky unethical way of side-stepping important issues: "In the late years of the Eisenhower Administration a substitute for this concept (socialized medicine) had been passed as the Kerr-Mills Bill, named for the late Robert F. Kerr (D-Okla) and Rep. Wilbur D. Mills (D. Ark.). President Kennedy intended to replace that with a new law. When Cohen came before the Senate Finance Committee for his confirmation hearing, the medical groups gathered together to pick him to pieces. Senator Kerr's protective questions shielded Cohen from innuendoes that he was a Socialist — if not a Communist. Why did Kerr protect him?"

"He's holding up his end of things," Cohen explained to an associate on his way back to his office. "Not many know it, but I wrote the Kerr-Mills Bill. He asked me to do it and I said I would but I didn't believe in it and would do it just to help him. So today he helped me."

The best way to understand the evil Cohen and his coterie spell for the country is to read the masterful "Wilbur J. Cohen: The Pursuit of Power." We quote a few excerpts:

Cohen the Catalyst

"More and more Wilbur J. Cohen became the catalyst who brought together the results of other men's labor and reaped the rewards. How he operated and the techniques he used constitute a tale of intrigue, deception and power seldom achieved in the nation's capitol where power is pursued by many but attained by few.

"Cohen's career is intimately associated with the enlargement of labor's power. There can be no doubt that the ultimate goal of organized labor is the creation of a labor government and a collectivist society. The study of Cohen's bureaucratic rise is, therefore, more important than a study of one man's ambition. For his activities related not alone

to personal ambition in a single federal agency. He has sought to achieve INTERNATIONAL control of Social Security systems, including control of the medical profession.

"The voting strength and financial leverage through national and international unions have given to Cohen such power as few men possess. His involvement in international intrigue is well illustrated in his aborted mission to Japan in 1948. He hoped to mislead MacArthur but the plot fell through. He has had his finger in the Social Security pie in numerous countries around the world, serving as the catalyst bringing together social, economic and political forces to advance labor's cause. If he deemed it not expedient to seek Communist support openly, there is no evidence he ever refused it privately. He has not been squeamish about methods and associates. If he has not proclaimed that the end justifies the means, he has at least conducted his life on the basis of that premise." (Pp. 125-126).

Incompetence of Wilbur Cohen

"The testimony of organized welfare recipients, organized social workers,, organized labor and Wilbur Cohen at the September 1967 hearings on H.R. 12080 before the Senate Finance Committee points up the chaos which thirty years of welfare statism has produced. In this short time expenditure for social welfare, including social assistance, social insurance and administrative costs have risen from \$6.4 billion in 1934-35, during the depth of the depression, to \$77.5 billion in 1964-65, when the country was enjoying nearly full employment, high productivity, incredible workers' fringe benefits and generous lagniappe for the Great Society's non-workers." (Page 211).

Cohen and H.E.W. on Honesty

"George E. Immerwahr, formerly an actuary on the staff of the original Bureau of Old Age and Survivors Insurance, decried the dishonest use of such terms as 'insurance,' 'premiums,' and 'earned.' He suggested that each person who becomes entitled to Old Age and Survivors Insurance benefits and who receives them should also receive a statement with his award letter as follows:

"Your benefit is not a contractual right as would be an insurance or annuity benefit purchased from a life insurance company."

"Far from being 'insurance' 'purchased' by beneficiaries and 'paid for' by the contributions (i.e., taxes) of the individual employee, the fact is, said Immerwahr, that such an implication is an absolute deception and really serves to undermine the security of the OASDI program. (Pp. 226-227).

Congressman John Ashbrook wrote in 1967: "Cohen is doing more to enhance Socialism than anyone in the Administration."

WILBUR J. COHEN

(Continued from Page 2, Column 3)

There is evidence that Wilbur J. Cohen has had past association with at least three communist fronts, as cited by the Special Committee on Un-American Activities, Appendix IX, Page 1685:

"Wilbur J. Cohen, New Cut Road, Rural Free Delivery No. 3, Bethesda, Md., employed by the Social Security Board, is a member of the Washington Committee for Democratic Action, member of the Washington Bookshop, and a member of the Washington Committee to Aid China."

Dr. Marjorie Shearon in her book "Wilbur Cohen: Pursuit of Power" (Page 236), made the following observation:

"Whether or not Cohen was a member of three communist groups, as claimed by the HCUA, in 1941 and 1944, is a small matter compared to his relationships through many years with other communist fronts or groups infiltrated by Communist frontiers. Cohen has never forthrightly repudiated these persons after they were exposed . . . He did not resign from the Social Security Administration in protest as others did . . ."

Wilbur Cohen, Abe Fortas, Arthur Goldberg, Jerome Weisner and Walt Rostow are but the main spring of the many Zionist architects of chaos (all unquestioned Marxists) who have brought America to her knees. And Cohen is not the least. Walt Rostow says "The United States must finance the world" and Wilbur Cohen plays a major part in acquiring the money necessary to do that financing. Cohen aims for a fantastic Social Security bite on all incomes up to \$15,000. As ardent and obedient Zionists, this coterie is carrying out the instructions of their mentor, Ben Gurion, when he stated in a Look Magazine article Jan. 16, 1962, that the world in 1987 would see the USA a completely planned welfare state and the world government would be in Israel — home of a truly United Nations.

Is Wilbur J. Cohen fit to sit in the President's Cabinet, to have a voice in high policy decisions? At least a Socialist, Cohen now controls, directly or indirectly, the annual spending of some \$60 billion for welfare, nationalized medicine federally controlled education, public housing, rent supplements, research, construction of facilities, etc.

Cohen plans to nationalize medicine for the entire population, throw much of welfare cost on Social Security taxes, and seize control of all education. (Wall Street Journal (3-25-68).

On July 30, 1965, Medicare became law. It started with a lie (Section 1801) when it stated: "Nothing in this title shall be construed to authorize any Federal officer or employe to exercise any supervision or control over the practice of medicine or the manner in which the medical services are provided . . ."

Since enactment of the law the Government has done nothing in the health field but meddle with the practice of medicine and the operation of hospitals. It has threatened reprisals and anti-trust suits. Now it would force physicians to accept Federal fee scales and to enter into group practice. Such practice would not permit free association of congenial and highly qualified physicians, but would insist on integrated professional staffs of equally qualified physicians, nurses, and technicians assigned by Government.

Cohen is the master planner, manipulator, timer, and stacker. Without professional training, backed primarily by Organized Labor, social workers, and politicians, is he of Cabinet calibre? Can he be trusted or believed? Urge the House Committee on Un-American Activities ranking Republican member John M. Ashbrook (Ohio) to hold a full-scale investigation of Cohen — his views, his backers, and the techniques he has employed in his pursuit of power. Act immediately. Each day he is in the Cabinet is a threat to our Republic!

Ringed by Marine guards, their noses still filled with the stench of burning buildings, Congress meekly capitulated, passing one of the most controversial bills in recent history — one that under any other set of circumstances would most certainly have been roundly defeated — The Open Housing Bill.

This reward for those who have so often shown contempt for law and order (and who, in turn, are really being USED and are unable to "see the forest for the trees") is not scheduled to become completely effective until January 1, 1970.

We have been granted some time which we must use effectively to ESTABLISH THE GUARDIANS OF OUR SOCIETY AND TO ELIMINATE THOSE WHO SEEK TO UNDERMINE OUR PERSONAL RIGHTS.

We must have representatives who will not allow themselves to be "blackmailed into acting" (Waggoner); and we heartily commend those who stood and were counted.

The wedge has been driven further into the wall. Now, more than ever, we must be fully committed to the restoration of State's Constitutional Rights before Civil Rights obliterates Personal and Constitutional Rights. Action, organized, effective action of enlightened persons determined to have the States' Constitutional Rights upheld is imperative!

ated Eurasian state, all other continents will become united in a world alliance, at whose disposal will be an international police force. All armies will be abolished, and there will be no more wars. In Jerusalem, the United Nations (a truly united nations) will build a shrine of the prophets to serve the federated union of the continents; this will be the seat of the supreme court of mankind, to settle all controversies among the federated continents."

Such is the Jewish utopia. Note that there is no room in it for any such entity as "the United States." Our nationhood is to be dissolved into the Jewish World State. We are to have no armed forces of our own; we are to be subject to an international police force. This is not a vision of the future; it is the policy under which we are living today. The policy of our ruling class is to abolish the United States as such, to abandon national sovereignty. The Jews have possessed unbridled power in the United States for three decades. "Conservatives" do not interfere with them in any serious way. They may grumble a little, but most of them eventually learn to kiss the Jewish boots. "Anti-Semites" are not a serious threat to the power of American Jews. Any failures which the Jews have encountered must certainly be their own fault.

Many anti-Semites believe that the Jews are successful. A large segment of right-wing papers tell us that the Jews and the USSR are not really hostile to each other; they are only pretending to be. We suspect that some right-wing papers do not bother much about the facts; they simply create the myths which they know will please their readers. Professor Revilo P. Oliver raises this question in his book "CONSPIRACY OR DEGENERACY." Can there be any real integrity in pro-American or anti-Communist movements? Or must we rely upon concocted myths, empty hoop-la, and shallow sloganeering? People have told him that the American people are too stupid or too shallow in their thinking to accept reality; therefore, they must be shielded from reality by a smoke-screen of falsity. This was very annoying to

Professor Oliver, who points out that, if this is really true, then we are hopelessly lost in any case.

Now, let us dismiss both the pro-and anti-Semitic myths and see clearly where the Jews are failing, and how their failure threatens the very existence of the United States.

The Jews have made a major failure in Russia. Ben-Gurion counts on "internal pressure of the constantly growing intelligentsia in Russia" to secure Jewish power there, and to force Russia into compliance with the Jewish blueprint for a world state. The intellectual powers of the Jews are indeed formidable. A Jewish writer named Ginzburg recently attempted to exercise these Jewish powers in Russia. Ginzburg was hauled away to a secret prison. He was given a secret trial and sentenced to prison. This was the international Jewish power bumping against the forces of native Russian Nationalism. Ginzburg is the clear loser in this battle. He is in jail. Why did he lose?

He lost because he bumped against some very formidable native powers. Jews still dominate the intellectual rackets in Russia, just as they do in the United States. Back in 1917, they carefully murdered the whole native Russian intelligentsia. This damage has never been repaired. Without the Jews, Russia would be terribly short of the intellectual laborers necessary to conduct the affairs of a large nation. The Jews counted upon this fact to give them "supremacy" in Russia. Yet they do not have enough "supremacy" to keep Ginzburg out of jail. Why? Because there is a power which can overrule the intellectuals. That power is THE ARMY. When the intellectual has no weapon except his big, lying Jewish mouth, he is at a pronounced disadvantage when he is put at the point of a gun. He is no longer the "Jewish superman." He is merely the perpetual Jewish martyr, the perpetual Jewish loser.

In "COMMON SENSE" we have traced the intrigues of recent Russian history in some detail over a period of time. These intrigues were important, but they were not of the ultimate importance.

THE REAL ISSUE IS THIS: CAN HISTORY BE "PLANNED," AS THE JEWS THINK, OR IS IT GOVERNED BY FORCES BEYOND THE KEN OF MORTAL MAN?

The "Bible believer" will give you a quick answer to that: God is the judge of the nations. "Man proposes, God disposes." True believers will be regarded with contempt by the sophisticated atheists and liberals in the great universities. It is axiomatic in some parts of American society that "a boy loses his religious faith when he goes to college." The professors set to work with a will to educate that sort of thing out of him, to teach him a more "advanced" view.

There are a mere handful of real sophisticates who know all about Atheism and still do not believe in it. Mortimer Adler has presented this view in his new book "THE DIFFERENCE OF MAN AND THE DIFFERENCE IT MAKES." Atheists in fact are not really much concerned about "Scientific Truth." Rather, they created, a hundred years ago, a kind of "Atheist Church." They do all the things they have accused Christianity of doing; especially, they trim their sails to the winds of the ruling class. They teach things which are to the advantage of the class which pays their salaries and governs their promotions.

The real sophisticate never even considers the asinine arguments which rage between religion and atheism; nor does he ever consider the asinine pseudo-controversy which rages between the "Left" and the "Right" in politics. Such words have no real meaning. They are invented by quacks and intellectual con men for the sucker trade.

The Jews have made much hay out of such frauds. They swindled wide segments of the Gentile society into believing that the essence of the world crisis is a "conflict" between capital and labor. To this day, I meet park-bench conservatives who devoutly believe this Jewish fraud. In so far as any conflict between capital and labor really exists at all, it is a relatively trivial matter; certainly it is not the real hub of the world crisis. Labor relations in the U.S.A. today are exactly what

(Continued on Page 4, Column 1)

BANKRUPTCY OF JEW RULE

(Continued from Page 3, Column 3)

the biggest capitalists in New York want them to be. Not all capitalists are pleased with labor unions. The smaller provincial capitalist, and perhaps even the very large provincial capitalist, is likely to be opposed to them. No matter. The real power is in New York. New York likes the subservient, lick-spittle labor leaders. The high-wage policy is part and parcel of the currency-inflation policy. The working class has its troubles, even in prosperity, but who cares? The labor unions are really part of the rigid caste system which maintains special privileges for the anointed. The folk culture of the working class is gutted and destroyed; family life is eroded away. Law and order scarcely exist in some working class districts; it is in fact POLICY to have a high crime rate in working-class districts, as this is considered good discipline for the workers.

Conflict between capital and labor? Nonsense! Oswald Spengler said a real mouthful when he said, "All proletarian movements do the work of the big money."

The Jews have had an enormous success with the "Right-Left" myth for a hundred years. Yet it has been seen through in too many places. German writers made mincemeat of it in western Europe long ago. Today the rulers of Russia are demonstrating, by their public actions, that they too have seen through the "Left-Right Fraud." With the collapse of this fraud, the whole basis of modern Jewish power is endangered.

American Jews have been "doves" about Vietnam and "hawks" about the Middle East. HARPER'S magazine has devoted most of a whole issue to Norman Mailer's scribbles about "the march on the Pentagon." Youngsters have been urged to desert the armed forces, evade the draft, take to LSD, anything except fight in Vietnam. But now that Israel is clearly in danger, they suddenly want us to become a nation of stalwart warriors. We should rush into the Middle East to fight for Israel, because Jews are the "Aristocrats of the World."

Surely the Jews must know that a nation's morale and patriotism cannot be turned on and off like steam. For three decades they have been engaged in the sabotage of the nation's military stance; they have based this upon their idea of "planned history," of a world state governed by intellectual power rather than military power, but "planned history" is not a real possibility; it is merely the central Jewish error.

If you are a simple soul, a "Bible believer," you may simply believe what the Bible says: God really rules the world.

If you are a well-educated sophisticate, and want a more complex description of the process, you should invest in the works of Oswald Spengler. The "culture cycle" described by Spengler is fundamentally of far-out, mystic origin. Spengler makes no real effort to account for it; he merely observes from history that it exists. In other words, Spengler faces the fact that the rise and fall of nations is governed by mystical forces beyond the reach of tampering chuckleheads in the pawnbroking or drygoods business, or even natural-born cretins who become best-selling Jewish novelists.

The Jewish intellectual structure is merely a creation of blind, ignorant pride, a Tower of Babel erected in rebellion against heaven. It is not omnipotent. It is not infallible. It is not even successful. The trouble is, it dominates the United States. It is rapidly losing its grip everywhere else in the world. If it maintains its grip in the United States, then we are finished. The world crisis is not a struggle between capital and labor; it is not an argument about how the economy should be run. The world crisis is, in essence, a military crisis. The Jews have striven with might and main to make it an intellectual affair, ruled by supposedly superior Jewish brains. They have not expected it to become a military crisis; yet it has. Russia is building a vast military force for the purpose of making an attack upon the United States.

Now, Mr. Jew! Your superior intellect is supposed to be able to control this sort of thing. Let's see you get out of there and perform! Let's see you stop Mr. Brezhnev

from building 100-megaton bombs. It is very probable that the men who run the Red army today are no intellectual match for the Jews. The Jew can out-argue them. But after the Jew has out-argued them, they may become annoyed with him and may kill him.

The "Jewish season" in world history has passed. Their talents are those of the big, lying Jewish mouth and the empty-headed quackery of the Jewish Literati. The Jew has no talents of any value in a world given over to blind, naked force.

That is the real battle in the world today: The Jewish mouth against the elemental forces of naked violence. I will not bet much on the Jewish mouth. Anti-Semites are always talking about Jewish supermen; so are the Jews.

We must reject the image of the Jew as a superman. He looks better in the drygoods business or the pawnbroking business than in politics or literature or education. The Jews should stay within the limits of their real aptitudes. Their intellectual frauds may look superficially brilliant, but this is a deceptive phenomenon. The Freudian-Marxian social sciences are empty and shallow. We hear much about the brilliance of the behavioral sciences today. In reality, the social scientist, after all of his mighty effort, may possibly know five per cent of what Frederick the Great or the Empress Maria Theresa knew instinctively and instantly about human motivations. They are merely cheap crumbums trying to act the aristocrats' role. By cavorting in the arena of political and intellectual life, the Jews are merely bringing the consequences of their manifest incompetence upon themselves and the Gentile nation. The Jews, and the Gentiles who have "made it" under Jewish auspices, are a cocksure crew with nothing to be cocksure about. The people who rule over us today are, on occasion, a very entertaining kind of clowns; but we desperately need leaders, not clowns. Have we, as a nation, lost the ability to distinguish between clowns and leaders? The Jew is a pretty good court jester; but it is the aristocrat not the jester, who rules the world. If we cannot supply genuine aristocrats for the world's need, somebody else will.

THE FALSE FACE OF UNCTAD

By MARY DAVISON

The UN has been one of the greatest contributing factors during the past quarter of a century to the complete disintegration of the U.S. Mary Davison's shocking revelations on UNCTAD (UNITED NATIONS CONFERENCE ON TRADE AND DEVELOPMENT) prove this beyond doubt. This book, written primarily for the guidance of American businessmen, spells out in detail the program for abolishing all protective tariffs and putting American producers (industry and labor) completely at the mercy of power-mad men determined to rule the world. THE THREE MUSTS

(Continued from Page 1, Column 2)
the Conspirators! Demand a pledge for such a review!

Treason Act No. 3

Ever since 1954 (and even before) Earl Warren, Douglas, Fortas, Goldberg and other U.S. Supreme Court Justices have been issuing decisions "based on the principles of the UN Charter" instead of on our Constitution. THAT IS RANK TREASON! That is what has created all the anarchy and rioting in all our cities by the Negro mob, all protected by various decisions. Congress must haul in all those Justices for examination via impeachment proceedings—and must outlaw all such decisions and legislation! You and every voter must demand a pledge from every aspirant for seats in both Houses of Congress to support such a review of all the U.S. Supreme Court Justices . . . That is the only way to restore our Constitution as the sole law of our land! . . . It is the only way to restore our country to what our Founding Fathers intended it to be.

Last, but not least: Under our Constitution every one of our 50 States is a Sovereign Entity — and that the Federal Government is merely an agent and the servant of the peoples of those States. Thus every voter in every State should demand a pledge by every member of his State Legislature to take all necessary action to establish that Sovereignty — and then notify and warn the Federal Government that the U.S. Senate had never asked the various States for permission to include them into membership in the fraudulent United Nations — that they do not and never did enter into the fraudulent pact, that the UN is outlawed within each State — that all U.S. Supreme Court decisions (and Congressional Legislation) "based on the principles of the UN Charter" are fraudulent and null and void . . . they, the Legislatures must notify the Federal Government that not one dollar of tax money derived from the citizens of their States can be used for the support of the UN or any UN objectives — and that no citizen of their States, including all those in the Armed Forces, can or shall be forced to render any kind of services for the UN — and that all Armaments, jointly owned by the States and the Federal Government, and paid for by the tax-money of the American people, can not and shall not be given or diverted to the UN.

Fellow-Americans: — We are today in the FINAL battle for the salvation of our country — for your children! If you wish to save our country, send this issue to your Representative and Senators in Washington and to every member of your State Legislature — also enclose a personal letter notifying him that if he wants your vote he will render to you—and to the public — a PLEDGE to carry out these requirements — also send copies to all other aspirants for those offices.

This is the only way we can save our country—and we have less than one year in which to do it—and REMEMBER: God helps only those who help themselves . . . George Washington knew that at Valley Forge — that was why he constantly prayed to HIM for HIS aid and guidance — and then went on fighting! That was how he gave us a wonderful land to live in — that's how we must now regain it! The salvation of our nation depends upon YOU!
